

AZRIEL FAJAR WICAKSONO

Jl. Haryo Panular No.2, Surakarta, Jawa Tengah, Indonesia | +62 812 9553 6876 | afw1407@gmail.com | rielcode.com

Azriel is a Web Developer and founder from Indonesia with 3 years of experience building responsive, business-oriented web applications. He works across the full stack in PHP, Laravel, MySQL, JavaScript, and Python, and extends beyond code into design systems, marketing automation, and programmatic video production. As founder of Rielcode he has shipped client websites, an internal business platform, and a library of 31 industry demo sites. He also serves as a teaching assistant for three courses in his department, treating every project and every class as a chance to learn a new discipline rather than repeat a known one.

SKILLS

- **Languages:** PHP, JavaScript, Python, HTML, CSS, SQL
- **Frameworks & Tools:** Laravel, Filament, Bootstrap, Tailwind, Flask, React (Remotion), Playwright
- **Data & Automation:** MySQL, REST APIs, Meta Graph API, Manim, FFmpeg
- **Design:** Figma, Canva, design systems, responsive UI, brand identity
- **Workflow:** Git, VS Code, Claude Code, XAMPP, cPanel deployment
- **Learning next:** Swift and SwiftUI

WORK EXPERIENCE

Teaching Assistant (Asisten Dosen) - Satya Wacana Christian University Aug 2026 - Present

- Selected as teaching assistant for three concurrent courses: Programming Fundamentals, Introduction to Information Technology, and Discrete Mathematics.
- Lead the practical sessions for each course while the lecturer delivers the theory, translating lecture material into exercises students work through directly.
- Share responsibility with a co-assistant for 30% of the final grade in each class, including assessment design and evaluation.

Founder & Web Developer - Rielcode Oct 2024 - Present

- Founded and run Rielcode, a solo web development studio, handling the full cycle from lead generation and scoping through development, deployment, and client handover.
- Delivered production websites for PT. Parallaxnet Siber Indonesia, Parallaxnet Canada, PT. Sinergi Sarana Solusi, and PT. Dwipa Anugrah Alam Mandiri.
- Built Parallaxnet Canada's company website with an AI-powered chatbot, an admin-managed news system, and a responsive interface, replacing a rough unmaintained site.
- Designed and built a library of 31 industry demo websites so prospective clients could evaluate a working page instead of a proposal document.
- Developed the Rielcode business platform in Laravel and Filament, covering order management, invoicing, audit logging, and admin settlement. Live at rielcode.com.
- Ran and analyzed multi-variant Meta advertising campaigns, building a Flask dashboard against the Meta Graph API to compare cost per conversation across channels and creative sets.
- Rebuilt the FIT Competition 2026 website for Satya Wacana Christian University, improving structure, responsiveness, and visual quality.

Web Developer (Intern) - PT. Parallaxnet Siber Indonesia Sep 2024 - Feb 2025

- Developed the company website using PHP, Laravel, MySQL, Bootstrap, HTML, CSS, and JavaScript.
- Built core features including page structures, backend functionality, and database integration.
- Gathered requirements directly from stakeholders and presented progress in review sessions, strengthening technical communication with non-technical audiences.

PROJECTS

Rielcode Business Platform rielcode.com Oct 2025 - Present

Laravel, Filament, MySQL

- Built the internal platform that runs the business: order management, invoice generation, audit logging, and admin settlement.
- Designed the public site with service pages, AI chatbot, SEO structure, and an affiliate program section.

- Supports both IDR and USD invoicing for local and international clients.

JARVIS - Personal AI Operating System2025 - Present

Markdown, PowerShell, Node.js, Claude Code

- Built a personal AI assistant system with 45 modular skills covering client proposals, lead tracking, deployment pipelines, content production, and coursework support.
- Designed a persistent memory and context architecture so the assistant retains business rules, client history, and prior corrections across sessions.

Programmatic Video Ad Pipeline2026

Remotion (React), Manim, Python, FFmpeg

- Wrote code that renders video advertisements instead of editing them by hand, producing 93 finished video assets across multiple aspect ratios from a shared theme system.
- Handled scene timing, voiceover synchronization, and multi-format export in a single reproducible build.

EDUCATION

Computer Science Major2025 - Present

Satya Wacana Christian University | GPA 3.91 / 4.00

- Teaching assistant for three courses: Programming Fundamentals, Introduction to Information Technology, and Discrete Mathematics.
- Event committee member for FIT Competition 2026.

Software Engineering Major2022 - 2025

Surakarta State Vocational School 5

- 1st place, city-level student competency competition in web design engineering.
- Completed Advanced Software Engineering course, Universitas Gadjah Mada.

CERTIFICATIONS

- Full Stack Developer Certificate - PT. Parallaxnet Siber Indonesia, 2025
- Advanced Software Engineering Course - Universitas Gadjah Mada, 2024
- Student Competency Competition Certificate, Web Design Engineering - Lomba Kompetensi Siswa, 2024
