

PROJECT COMPLETION DOCUMENT

Parallaxnet Canada

Prepared for **Ali / Parallaxnet Canada**

Completed on **May 2026**

Prepared by **Rielcode**

Project Overview

Custom website for Parallaxnet Canada, an education organization based in British Columbia. The site presents the organization's mission, programs, curriculum, scholarship opportunities, news, and partner network, with an integrated admin panel for content management and an AI-powered chatbot for visitor support.

Live URL

How to Use the Admin Panel

1. Go to <https://parallaxnet.ca/admin/> and log in with the credentials above.
2. From the dashboard, select "News" to add, edit, or delete news articles and events.
3. Select "Partners" to add or remove partner organization entries and logos.
4. To change your admin password, use the "Change Password" option in the panel menu.
5. Your session will automatically expire after 30 minutes of inactivity for security.

Features and How to Use

Key features built into the website:

News and Events Management

The admin panel allows you to publish, edit, and remove news articles and event announcements that appear on the News and Events page.

Log in at /admin/, click "News", then use the Add, Edit, or Delete buttons to manage your content. Changes appear on the public site immediately.

Partner Management

Partner organization logos and names displayed on the Our Partners page are managed through the admin panel.

Log in at /admin/, click "Partners", then add a partner name and upload their logo. To remove a partner, click Delete next to their entry.

AI Chatbot

A floating chatbot widget powered by GPT-4o mini appears on every page to answer visitor questions about Parallaxnet Canada's programs, contact information, and services.

The chatbot runs automatically. Visitors click the chat icon in the corner to start a conversation. No action is needed from your side to operate it.

Next Steps

The following items are recommended after receiving this handoff:

- Add social media links -- provide your official social media profile URLs so they can be added to the website footer and navigation.
- Review all content -- go through each page on the live site and confirm all text, images, and information are accurate and up to date.
- Change the default admin password to something secure using the "Change Password" option in the admin panel.
- Note your domain renewal date with Rumahweb to avoid service interruption.

Thank you for trusting Rielcode. Reach out anytime via WhatsApp.
